day. The smaller stores are enthusiastic for closing, as for as they have been seen. The larger concerns are more conservative and required time in which to consider the matter. This is especially true of those companies that submit every important action to their boards of directors. One large firm raised the peculiar objection that it would give the city a black eye with tourists if they should visit the city on the mid-week holiday and find all business houses closed.

The Retail Clerks' association has agreed to take the matter up, although many of its members are unscouraged over the partial failure of the carly closing movement. Mrs. Beardsley, her two sons, Willis and Frank, and Mrs. Willis Beardsley, were present and were deeply affected by the ceremony.

## COTTONWOOD WATER CASE.

Christensen Discharged On Charge of Stealing Water.

Christian Christensen of Big Cotton-wood was arrested on the 19th instant wood was arrested on the 16th instant charged with stealing water, and interfering with the rights of one George Coleman. The case was tried at Big Cottonwood yesterday before Justice Stevenson and a jury, and Mr. Christensen was promptly acquitted by the Jury and completely vindicated in the eyes of his neighbors and friends. The evidence showed that for several years past there has been a dispute between persons irrigating from what is known as Coleman's flume, as to the right to use waters from said flume on

It on the fifth day out of every ten, and Mr. Christensen and his associates as strongly maintained that they were entitled to use it on that day. Mr. Christensen showed that the water had been regularly distributed to him on the date when he is charged with stealing the water. The ticket was produced in evidence and the watermaster testified to the fact. In short the whole case showed that it was a question to be decided in a civil netion, and possessed no element of criminality.

Assistant County Altorney Gunter prosecuted the case, and Judge E. A. Wilson represented the defendant. It is thought by many that the matter will find its way into a civil court before it is settled.

(Butte Intermountain.)

Another case in which the X-ray machine was used to advantage has floated to the surface. Day before yesterday Haywood Smith of Sait Lake indeed at St. Paul's hospital in this city. He was suffering from the effects of a bullet wound in the knee and the injury promised serious results. The bullet was known to be imbedded in the knee, but just where was a question that had not been ascertained. Dr. Wells, the hospital physician, brought 'a X-ray to bear upon the knee, with the result that the bullet was located and extracted.

Piles Are Easily Cured.

Nature has provided a specific for piles. It is the active principle of the common buckeye. This principle is extracted by a special process and in combination with other remedies forms Tabler's Pile Ointment.

This ointment cures nothing but piles, but it cures blind, bleeding and protruding piles every time. It makes operations needless: cures when operations fail. This is why physicians recommend it. Bottles, 50 cents. In special tubes for handy application, 75 cents. Can be sent by mail.

Rishop Scanlan the magnificent sum of \$19,000 for his cathedral fund and ssures him that the money will be subscription with the wish that it would be the means of Inducing others to contribute to so worthy a cause. Mr. Ivers is a mining man well and favorably known throughout this state. He owns an interest in the Silver King and until recently lived in Park City, from which place he was sent to the last legislature. He is now a permanent resident of Sait Lake City, and the fact that he is willing to give so liberally of his means to his church is evidence that his heart is in his adopted city. Mr. Ivers and all his family are consistent members of the Catholic church. subscription with the wish that it

other large subscriptions in view. It is not surprising, therefore, that Bishep Scanlan and those interested with him in his work are feeling jubilant.

Bishop Scanlan has been in Salf Lake City working hard for the past twenty-six years, There have been times, he says, when the way seemed dark and the burden heavy, but he has kept his faith at all times, and many friends will rejoice over the prosperity that is now coming to him in his work.

The work of excavating for the cathedral foundation is being pushed with all speed, forty teams and an army of men being engaged every day in removing the dirt. The enormous size of the hole already made furnishes a slight idea of the magnitude of the proposed building. The work of excavating is to be completed according to the contract on Aug. 12.

The five designs for the cathedral prepared by Archlitect Neuhausen have been forwarded by Bishop Scanlan to Archbishop Riordan at San Francisco. This is done by the bishop as a mark of courteey to his superior. Archbishop Riordan has spiritual charge over all Catholies in this eyelestastical province. It may be presumed.
